### **DETAILED ACTION**

This action is in response to a communication filed on May 03, 2007 for the application of LeCrone et al., for a "Method and apparatus for enabling consistent ancillary disk array storage device operations with respect to a main application" filed February 24, 2004.

Claims 1-9 are allowed.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicant's representative George A. Herbster on May 29, 2007.

The application has been amended as follows:

As per claim 7, line 1, "program" should be changed to --program stored on a computer-readable medium--.

### **Reasons for Allowance**

The following is an examiner's statement of reasons for allowance:

After a complete search of all the relevant prior art the examiner has determined the claims are in condition for allowance. The following limitations when viewed in

Art Unit: 2113

combination with the remainder of the claim as a whole, place this application in condition for allowance.

As per claims 1, 4, and 7 the examiner finds the novel and non obvious feature of this claim, when read as a whole to be generating a request data structure for each second logical device in the consistency group, preventing write operations to each of the first logical devices in the consistency group associated with the second logical devices identified in the request data structure, initiating a shift all of the shifting each of the at least one identified second logical device in the consistency group to the second mode after said write prevention operation occurs; enabling write operations to all the first logical devices in the consistency group upon completion of said shifting whereby interactions between the first application and all the first logical devices in the consistency group resume and whereby the second application can interact with the second logical devices in the consistency group.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
